# SUSPENSION SOLUTIONS FOR YOUR TRUCK.

## SuperCoils®

SuperCoils are heavy duty coil springs specifically manufactured to replace existing fatigued springs. Built from high-grade double shot-peened steel and completely maintenance-free, SuperCoils level front-end sag and increase load support.

### SSC-52 RAM 2500

Front Application  
(2014 - present)

### SSC-25 RAM 2500 | 3500

Front Application  
(2014 - present)

### SSC-34 FORD F-350 | F-450 | F-550

Rear Application  
(2005 - 2016)

## SumoSprings®

Manufactured from our micro-cellular polyurethane, they are designed to reduce rear-end sag, decrease vibration, stabilize sway, and soften harsh rebounds. With no airlines or compressors, our suspension solutions require zero maintenance and are backed by a lifetime warranty.

### SSF-202-54 CHEVY & GMC 2500 | 3500

Front Application  
(2011 - present)

### SSF-111-54 FORD F-250 | F-350

Front Application  
(2005 - present)

### SSR-203-47-2 CHEVY & GMC 2500 | 3500

Rear Application  
(2011 - present)

### SSR-128-47-2 FORD F-250 | F-350

Rear Application  
(2017 - present)

## SuperSprings®

SuperSprings are a patented unique self-adjusting helper spring designed to level heavy loads. Manufactured in the US from high-grade shot-peened steel, they provide extra load support and reduce body roll.

### SSA4 TOYOTA TUNDRA

Rear Application  
(2007 - present)

### SSA28 FORD F-150

Rear Application  
(2004 - present)

## Coil SumoSprings®

Made from the same material as SumoSprings, Coil SumoSprings add up to 30% additional capacity to your factory coils and work on any vehicle with coil springs, front or rear.

To find the right size Coil SumoSpring for your vehicle, measure the gap between in the middle of the coil with the vehicle as it sits. You do not need to raise it.

Visit [superspringsinternational.com/coil-sumosprings](http://superspringsinternational.com/coil-sumosprings) to enter your measurement and order the right size part.
